

# The Wichita Eagle.

WICHITA, THURSDAY, APRIL 3, 1913.  
CITY AND COUNTY NEWS.

We would ask the attention of our original patrons and subscribers for a word. With this number closes the first volume of the EAGLE. For the past twelve months we have not failed to promptly on hand each week with some word of encouragement to our farmers and business men, with some season of the progress of the improvements and developments of our new town and country, and we hope, withal, much that has helped to whittle away many tedious hours, and to buoy up depending hope in the darker moments and trials incident to a new country. With this number the subscription of many with whom we have had pleasant weekly talks will expire. We hope to see your familiar names upon our books for many years to come; to regularly mail to your address the EAGLE when it shall have assumed the size and importance of a city journal, and shall be rolled in immense numbers from the revolving drum cylinder of a steam power press, its columns filled with not only news of this town and valley, which will be teeming with a happy and prosperous people, but with news by the electric wire from every quarter of the globe. And we opine that time is not far distant. In the future, as in the past, our aim shall be to publish a paper in the interests of the people of this valley, as a whole; in the interest of all that pertains to their material and moral advancement. In many respects the success of the paper has been far greater than its most sanguine friends hoped for, and for all which we, as editors, now return most sincere thanks. In adhering to our inflexible rule of demanding all subscriptions in advance, we shall endeavor to give each subscriber due notice of the expiration of the time for which he has paid by making a blue or red mark of a cross on the margin of the paper. With the hope that happiness and prosperity may attend you all, we now write the last words for the last number of volume one of THE WICHITA CITY EAGLE.

Time and space would not admit of giving the number of votes as they were cast in each ward, consequently we give them mostly in the aggregate. The ticket is a good one and we may look for an able and judicious administration of affairs in our city for the coming year.

For several weeks past the EAGLE has called the attention of our farmers to the probable profit that might be realized in the culture of the cotton. The ticket is a good one and we may look for an able and judicious administration of affairs in our city for the coming year.

The coal dealers of the two principal firms are J. E. Johnson and D. A. Mitchell, received during the last ten months 425 carloads of coal, or one hundred and twenty thousand bushels.

We were honored last week with calls from Mr. Perry of the Hutchinson News, and Mr. Ashbaugh, of the Newton Kansan, brother editors who are laboring shoulder to shoulder with the EAGLE in the upbuilding of the Southwest.

C. S. Broadbent, county clerk of Sumner county, passed through our city last Monday on his way to Topeka, to attend the farmers convention as a delegate from the Oxford township farmers club and the Arkansas valley fair company.

Fifty teams and wagons containing emigrants settlers passed through here one day last week en route for the west. As a stock raising country the above is a good thing, but it does not compare with Sumner and Sedgewick for agricultural purposes.

Mr. M. G. Lane, of Illinois, a gentleman of high educational attainments, one that is enthusiastic in everything that pertains to the culture of the rising generation, has been visiting our city for several days. He is a native of the state of Illinois, and is now a resident of the city of Chicago.

From Mr. Stem, of the firm of Kullback, Mills & Stem, contractors of the Metropolitan hotel of this place, we get the following interesting touching the dimensions of the building. It is 100 feet on Main street by 80 on Second street, three stories high. The hotel part will contain seventy-six rooms. The dining room will be 30x60 feet. The first story will have five business rooms of 20x20 feet, each fourteen in the clear, iron front, Corinthian columns. Six hundred thousand brick will be used in the construction of the building, four thousand feet of stone and one hundred and forty thousand feet of lumber. The cornice of both fronts will be ornamented with heavy brackets. The new hotel will be the largest hotel in Southern Kansas, and as to appointments and conveniences, second to no public house in the state of Kansas. The building will cost between thirty and forty thousand dollars, and will be finished by the first day of September.

As an indication of the estimation placed upon the EAGLE by parties residing outside of the state, we produce a little extract of P. S. of a letter written to the county treasurer of this county, by a gentleman residing in Bloomington, Illinois, which gentlemen paid our city a visit last spring, at which time he became a subscriber. We are aware that hundreds have been induced to visit, invest and settle in this valley through the instrumentalities of this paper, yet we cannot help feeling gratified when we run across such an unfeigned and appreciative commendation of our labor as is found in the following:

"P. S. I hope you will succeed in the EAGLE. It is doing a good work for the material interest of this valley. It is a very intelligent man. I read mine and find it to be a very interesting paper. I have learned something about Kansas. W. P."

See letters on cotton and hedges in another column.

Hills & Kramer, keep a fine line of carpeting for sale.

Port township voted solid against the bridge bonds.

The regular monthly meeting of the board of trade is today.

Mr. Thayer has commenced work on his theatre building.

Shilbeter & Russell have eighty thousand rounds of cartridges of different kinds.

Harris & Co., manufacturers and sold last season fifteen thousand dozen bottles of soda.

The next regular meeting of the agricultural society is on next Saturday. A full attendance is desired.

Dr. Furley has removed his office to the east side of Main street, one door north of Chas. Hill's drug store.

J. O. Davidson, of the firm of Davidson & McKee, has gone for the second time this spring to buy goods.

R. C. Nixon returned home this week and he will be followed in a few days by an immense stock of goods.

From reports received from different townships in this county, a bridge proposition was lost by a large majority.

A limited number of extra EAGLES of this week's issue can be obtained by our business men and others by calling early.

Meats, Adams & Newcomer have taken contracts to build residences for W. M. Cooke, of the Blue Front, and Mrs. Albright.

The election of officers for the M. E. Sunday school, for the coming year will take place next Sabbath. A full attendance is desired.

Mr. Roe, of Lawrence, has leased the yard of Mr. Weidner on the other side of the city, and has contracted to make 600,000 brick this season.

The communication from Waco giving the proceedings of a convention held in Watson township came too late for publication in last week's issue.

J. S. Danford, of the first national bank of Eldorado, and wife, also Chas. Foules and wife of the same place, paid our city a visit last Saturday.

We hope our friends throughout the county will send us the names of parties elected at the township elections on last Tuesday, in the various localities.

Dr. O. G. Givens, physician in the Indian department and is at present stationed at Fort Hill, passed through our city this week en route for Fort Hill.

J. R. Mead furnishes the property owners in this addition shade trees free of charge. A list of them is set out on our city and take good care of them.

Samuel Fosselman, of Covington, Indiana, has been making some investments in our town and country. Mr. Fosselman will be with his family next Monday. In Harvey county.

We counted 115 teams on Douglas avenue and Main street at 11:15 a. m., on last Saturday. Both streets presented the liveliest appearance throughout the entire day.

"For ways that are dark and tricks that are vain, the heathen Chinese is peculiar." We understand that an almondest celestial is negotiating for the whole of Peyton's block.

Dr. Longford & Fisher have taken possession of their new and commodious office, a few doors north of the national bank, where one or the other can be found night and day.

City Surveyor H. George surveyed a new race track south of the depot, last Saturday. The new track will be graded up in good shape and judges stand, etc., be erected.

The city board of trade has ordered lots of cotton, orange, orange, car beans and tobacco seeds which will be on in a few days and which will be delivered to farmers at net cost.

We can express no very high opinion of the new cross-walks put down by the city, nor yet of the manner in which they are laid. In a few months many of them will be as though they never had been.

The readers of this paper are treated to an original refrain from the long silent harp of "Honor." We think the gentleman who wrote the refrain is a good one, but we cannot endorse altogether his political prelude.

After the full returns were received on Tuesday night the band boys, with quite a number of girls, serenaded the newly elected mayor, Mr. Hope, who responded to the compliment with an appropriate and well-measured speech.

We were honored last week with calls from Mr. Perry of the Hutchinson News, and Mr. Ashbaugh, of the Newton Kansan, brother editors who are laboring shoulder to shoulder with the EAGLE in the upbuilding of the Southwest.

C. S. Broadbent, county clerk of Sumner county, passed through our city last Monday on his way to Topeka, to attend the farmers convention as a delegate from the Oxford township farmers club and the Arkansas valley fair company.

"Wanted—We wish to enter into contract to deliver about the last day of July, at Wichita, several thousand head of hogs and cattle. Parties wishing to buy, please address The foregoing are the words of an advertisement appearing in the Kansas City Times, that that paper and its contemporaries have the impudence from day to day to write editorials which set forth that Wichita will not be the great cattle market for 1873. It is no use to kick the aspect of affairs but heretofore direct connection with Wichita.

Captain A. M. Wright, who lives near Wellington, has been prospecting some fifty miles west of his home. In a succession of deep gulches he found fine growths of red cedar, from some of which he found no difficulty in splitting three good posts from a single cut. He says there is an abundance of such timber in the above locality. He also brought back some specimens of iron ore that has been pronounced 70 per cent. pure iron. Nothing is yet comparatively known of the natural resources of this vast country.

Charley Hill has been making necessary additions to his drug establishment. Running the whole length of his salarum is a set of up-right glass cases for the protection of package medicines. He has also put a cellar under his building and erected about the handsomest sign in the city, which consists of a semi-circle enclosing a globe. Mr. Hill has ordered a fine soda fountain, which will be up before the sultry days are here. Mr. Hill is also building a residence on Market street.

NOTICE TO FARMERS—The Atchison, Topeka and Santa Fe railroad is making a thorough collection of grains, grasses, soils, products, etc., for the purpose of showing the people of the eastern states, and in the old world, the great resources and capabilities of the state of Kansas, and particularly that portion of it tributary to their road.

These plans will all be properly marked with the name of the owner and his address, and will be on exhibition at the general office in Topeka, at the state fair of Illinois, and other eastern states, as well as at some important district fairs, and will be sent abroad to places where their exhibition will produce some benefit to the state.

You are therefore earnestly requested to add something to this collection, which, in any way whatever, will be an exposition of the capabilities of our state, and if you have not anything, make a point of raising something this year for such exposition. Let it be a sample of any or all kinds of small grains, giving date of planting, date harvested and threshed, and quantity per acre yield. Specimens of large or tall stalks of corn, or produce of any kind, or of any other crop, or of the largest ear of corn produced west of the state fair, or if you raise some of them for exhibition. In the line of fruits, we wish to make as good a display as possible, and particularly request your best specimens of the same, and you should use proper means in preserving their shape and appearance. Do not confine yourself to the articles named here only, but send along anything that you think is an honor to the soil you till.

Any expense that you may incur will be paid by A. E. Tozian, and manager of the exhibition. A. T. & S. F. R. Topeka, to whom all letters and specimens should be addressed. If you have anything to exhibit, or if you expect to raise something to exhibit, write him. Send it to him.
